🌐 calico32 🌐 calebc.co

Motivated and detail-oriented Computer Science student with a strong foundation in writing software and solving technical problems. Seeking a Summer 2027 internship in software engineering to apply skills in a practical environment and contribute to innovative projects.

Education

Worcester Polytechnic Institute

B.S. Computer Science

Aug 2024 – May 2028

Worcester, MA

GPA: 3.9/4

Relevant coursework

CS 3431 Database Systems I

CS 3516 Computer Networks

CS 3733 Software Engineering

CS 4241 Webware

CS 502 Operating Systems

Technical Skills

Skill Areas Full-stack development, Programming languages, Developer tooling, System administration

Languages TypeScript/JavaScript, Go, C/C++, Python, HTML/CSS, Java, Kotlin, C#, SQL

Software React, Next.js, Oracle Database, PostgreSQL, Docker, Git, Scripting, Windows, Linux

Certifications CompTIA IT Fundamentals+, Oracle Java Foundations, PMI Project Management Ready

Projects

Hanover iBank Lead Developer, CS 3733 in collaboration with Hanover Insurance Mar 2026 – May 2026

TypeScript, Node.js, React, PostgreSQL, Express, Auth0, Railway

- › Led a 10-person team to create an AI-enhanced content and knowledge management system for Hanover Insurance.
- › Applied Agile development methodologies and software design patterns to maintain a high-quality codebase.
- › Managed the release lifecycle, including cloud deployment, automated testing, and CI/CD pipelines.
- › Delivered the requested application, including extra functionality, at the end of the eight-week term via a live demo to Hanover Insurance stakeholders.

Osprey Stratify Lead Developer, CS 4241 in collaboration with Osprey Software Jan 2026 – Mar 2026

TypeScript, Node.js, React, PostgreSQL, Express, Auth0, Railway

- › Led a 5-person team to create a private school benchmarking web application for Osprey Software.
- › Created an improved user interface for collecting annual school data, a dashboard for comparative analyses, and extensive reporting capabilities.
- › Implemented secure authentication and authorization using Auth0 and role-based access control for comprehensive data access and privacy enforcement.

Experience

IT Intern Sep 2023 – Jun 2024

Union County Educational Services Commission Westfield, NJ

- › Created and utilized scripts and tools to automate common tasks and improve efficiency.
- › Rolled out documentation for the deployment of VR headsets to a special-needs employment training program.
- › Handled technical logistics and assisted in operating equipment for an annual school talent show.
